FINANCIAL AND COMMERCIAL.

Tuesnay March 18_6 P. M. Money is in fair demand at 6 a 7 per cent; the the road up to that time, being as follows: pearance in the market and are operating as abbents. They are very readily taken at bank and at the private banking houses at 3 a 2 per cent

Foreign exchange is firmer to-day. Bankers ask 112, and some leading houses refuse to sell at that rate. The supply of commercial bills is small. Gold is also firmer to-day; it was in request at 101% at the morning board, and sold at 101% on time. Operators place great reliance upon the experience of the past with regard to the movement of gold. It appears that there never was an instance of large I was of paper money by government without an appreciation of the precious metal. The prevailing opinion among the members of the Stock Exchange is that gold must again advance to 4 a 5 per cent, though whether it will not then react seems less generally understood. At the present rate of exchange there is a profit on the export of

gold to Europe. The stock market opened with strength this morning; the commission brokers had some fresh orders on the strength of the news from the West. In the course of the morning intelligence was received of the capture of Newbern, N. C., and this still further stimulated purchases. Government sixes again touched 94, but at this price they were fully supplied by the banks, and a decline ensued. They closed, however, at an advance of ¼ per cent on yesterday's price. The fives of 1874, which are scarce, rose 1½ per cent, and are now within 6 per cent of the sixes. In the afternoon the bears derived courage from the non-receipt of intelligence confirming the capture of Island No. 10, and some capital was also made out of the report of the Chamber of Commerce on the subject of the harbor defences. State stocks were sold down 1/4 a 3/4 per cent, and Toledo and Rock Island were depressed 1/4. The impression prevails that the bears are getting out quite alive in these two stocks. If so, a new upward movement would have a substantial basis to rest upon. The other railway shares were all better to-day. At the close Erie old had advanced %, Erie preferred 1/4, Hudson River 1/4, Harlem preferred 1, Reading ¼, Michigan Central ¼, guaranteed ¼, Panama ¼, and Illinois Central ¼. The most active stocks of the day are the two Eries, both of which have risen in favor since the appearance of Mr. Marsh's report. The large difference between them in price leads speculators to give the prefecence at present to the common stock, which has risen much less than the preferred, and whose holders will of course control the property. The market was steady at the close, the following be-ing the last quotations:—United States 6's, registered, 1881, 93% a 1/4; do. 6's coupon, 1881, 93% a 94; do. 5's, coupon, 1874, 87% a 88; Indiana 5's, 78% a 79; Virginia 6's, — a 61%; Tenmessee 6's, 60% a %; North Carolina 6's, 69 a 70; souri 6's, 53% a 1/6; Pacific Mail, 95% a 96; New York Central, 83% a 1/8; Erie, 371% a 1/4; do. preferred, 621/2 a 1/4; Hudson River, 361/2 a 37; Hara 43; Michigan Central, 57% a 3%; Michigan South ern and Northern Indiana, 24 a 1/2; do. guaranteed, 48 a 14; Panama, 121 a 1/2; Illinois Central, 861% a 14; Galena and Chicago, 697% a 70; Cleveland

64; Milwaukee and Prairie du Chien, 251/2 2 1/4; Cleveland, Columbus and Cincinnati, 111 a 1/4; New York Central 7's of 1876, 102 a 1031/4; Erie third mortgage bonds, 92 a 931/4; Michigan Central 8's, first mortgage, 103% a 104; Illinois Central bonds, 7's, 94 a 95; gold, 1011/4.

After the second board there was a large at tendance in the outside room, and some 1,200 a 1,400 shares of Michigan Southern changed hands at 24 a 1/8. There was no other change of conse

The following is a comparative statement of the exports (exclusive of specie) from New York to foreign ports for the week ending March 18, and since January 1:-

For the week...... \$1,580,044 2,161,949 2,143,971
Previously reported... 15,508,980 26,799,462 25,905,496 Since January 1...\$17,089,024 28,961,411 28,049,467

The difference between the export of last week and that of the corresponding week of last year is very slight, but, such as it is, it is in favor of last year. However, in the course of a few days internal navigation will be opened, and we shall again begin to increase our shipments of produce to the other side. It is plain from the letters from Europe that they will want every bushel of grain we can send them. We notice, among the exports of last week, a shipment of cotton to Liverpool, and also some shipments of sugar and coffee to Europe. The non-action of Congress on the Tax and Tariff bills is causing a good deal of embarrassment to merchants, the prevailing opinion being at present that no further duty will be levied on tea, sugar or coffee.

The committee appointed by the Chamber of Commerce to visit Washington, to consult with members of the government respecting the harbor defences, have returned, and report that government recommends the capitalists of the cities of New York, Philadelphia and Boston to provide for their own defence by the construction of first class iron-clad vessels, capable of de-stroying a craft like the Merrimac. No apprehension of the Merrimac going to sea is felt by government; but in times like these every contingency must be foreseen and every possibility guarded against. The navy yards and workshops of government are so fully occupied with the labors of the campaigns in progress, and government has so few employes who could be detailed to look after the construction of floating defences for the great harbors, that, in Mr. Stanton's opinion, the object sought by the committee-namely the perfect protection of our harbors-can be most speedily and most cheaply attained if undertaken by the parties in interest themselves, who will, of course, hereafter be remunerated by government.

The business of the Sub-Treasury was as fol-

Mr. Marsh's receivership has been very success ful, and a fortunate period for the road. In closing

his report he says:—

In cloring the active duties of his trust, the receiver takes the liberty of congratulating the stockholders that their property has been returned to them in as good condition as when it came into his hands; that the interest on the whole debt has been provided for, and the current interest punctually jaid; and that the directors have assumed the management of the read under circumstances more favorable than have ever existed in its history. The receiver had money on hand to pay all the expenses of operating the read, including rents and taxes, to the list of January, besides a consisterable surplus to be applied under the direction of the court to the payment of the interest on the mortgage bonds as it becomes due. With the ability to earn more income than ever before, it is hoped the early return of peace and prosperity to the country will so increase the traffic that the road will bereafter earn full interest on the entire capital and debt of the company.

From the tables appended to the report we compile the following, showing the annual earnings and expenses of the road from 1852 to 1861 inclu clusive, with the cost of repairs of track and rail-

and 19 days, after a lingering illness. Born in Pougukeepsie.

Sweet mother, thou in Heaven. Sweet mother, thou in Heaven,

I, a wanderer on the earth, Waiting, watching, for that Angel, Joying now in heavenly birth. Joying now in heavenly birth.

But I know that then art happy,
Happier in thy new found love
Than we, also could e'er have made thee
Halyst then wandered not above.
